How To Use

BD200 is a unique one stage cleaner /sanitiser, containing excellent degreasing and bactericidal properties. BD200 is effective against food poisoning bacteria including E.coli. BD200 is perfume free and non-tainting an ideal product for use in the food service industry.

Can be used to used on all work surfaces, cooker tops, canopies, walls, floors, racking, fridges, freezers, storage cabinets. Also safe to use on aluminium, stainless steel, plastic and ceramic tiled surfaces. Fully biodegradable, presents no effluent problems.

Dilution Rate:
General Cleaning: 60mls per 1L spray bottle - 2 x pumps
Degreasing: 250mls per 1L trigger spray bottle - 8 x pumps (1:4)
Floors: 120mls per 5L of water
Mop the floor, rinse off and allow to air dry

For Best Results
Spray BD200 onto surfaces to be cleaned, and wipe off with a clean damp cloth. Allow to air dry
For cleaning heavily baked on greasy surfaces the use of a scouring pad will be necessary and allow up to 5 minutes contact time for the product to penetrate the soiling before wiping off with a clean damp cloth or disposable paper towel.
